Training

Fundamentals of Data Structures and Algorithm **Jun 2025 - July 2025**
Lovely Professional University.

- Acquired strong foundational knowledge of data structures including arrays, linked lists, stacks, queues, trees and graphs using C++.
- Implemented core algorithms such as searching, sorting and recursion focusing on time and space efficiency.
- Enhanced problem-solving and logical reasoning skills through hands-on coding exercises and project- based learning.

Projects

Car Rental Management System| *MERN Stack, Responsive Web Design* **Oct 2025 - Dec 2025**

- Engineered a high-performance, full-stack rental platform using the MERN stack, featuring 5+ specialized modules for seamless vehicle lifecycle management and user booking workflows.
- Developed and integrated **6+ RESTful APIs** to manage real-time vehicle inventory and automated request validation, ensuring 100% data integrity across the booking lifecycle.
- GitHub Repository Link: **GitHub**

Recipe Sharing Platform with AI Chatbot| *MERN Stack, Responsive Web Design* **Oct 2025 - Dec 2025**

- Architected and integrated an AI-powered chatbot to provide real-time recipe recommendations and ingredient substitutions, significantly enhancing user engagement.
- Leveraged Node.js and Express to build scalable back-end services, facilitating efficient real-time interactions and data persistence.
- Applied **MERN** stack knowledge successfully to create a fully functional website.
- GitHub Repository Link: **GitHub**

Grievance Redressal Portal| *HTML, Tailwind, PHP, MySQL* **Feb 2025 – Apr 2025**

- Created a **Grievance Redressal Portal** to streamline complaint submission and tracking, improving response transparency and reducing manual paperwork.
- Built a responsive and user-friendly interface using **HTML** and **Tailwind CSS**, ensuring accessibility across devices.
- Deployed and tested the application locally using **XAMPP**, optimized database queries, and implemented validation to ensure secure and efficient data handling.
- GitHub Repository Link: **GitHub**

Certificates

Social Networks **Nov 2025**
NPTEL — Certificate Link

Computational Theory: Language Principle & Finite Automata Theory **Aug 2025**
Infosys Springboard — Certificate Link

Fundamentals of Data Structures using C++ **July 2025**
Lovely Professional University — Certificate Link

Technical Skills

Languages C++, Java, JavaScript, PHP, MySQL

Technologies/Frameworks: React JS, Node JS, Git, GitHub, Ubuntu, Socket.io

Skills: Data Structures and Algorithms, Problem-Solving, Responsive Web Design, Scripting in JavaScript

Education

Lovely Professional University Punjab **2023 – Present**
Computer Science and Engineering — CGPA: 7.04 *Jalandhar, Punjab*

BSF Sr. Sec. Resi. School **2021 – 2023**
12th with Science — Percentage: 66.40% *Siliguri, West Bengal*

BSF Sr. Sec. Resi. School **2019 – 2021**
10th with Science — Percentage: 85.60% *Siliguri, West Bengal*
